

# Cutting Die Impression Counter

A digital counter for use with both flat and rotary cutting die applications.

The compact, all-in-one, battery powered counter with a 7-digit display and built-in switch is easy to install. A powerful tool for preventive die maintenance and production monitoring.

## Key Features

- LCD display with 7 digit, 7mm characters
- Display range 0-9999999
- Self-powered internal lithium long life battery
- Low power CMOS circuitry to achieve long battery life
- Simple to install
- For flat and rotary cutting dies

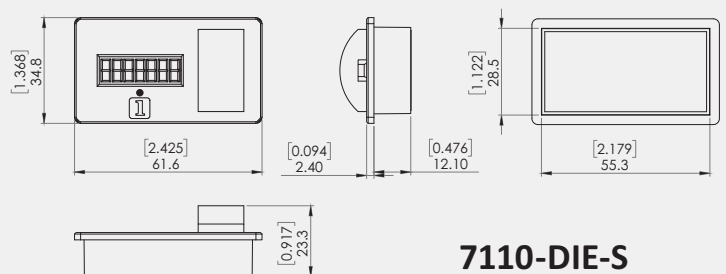

## Technical Specification

<b>Supply Voltage</b>	Internal lithium long life battery
<b>Display</b>	7 digit black LCD, 7mm characters with leading zero blanking
<b>Count Range</b>	0-9999999
<b>Operating Temp.</b>	-10°C to +60°C
<b>Storage Temp.</b>	-20°C to +60°C

## Benefits

- Keep track of Die usage for maintenance management
- Foresee potential issues before they occur
- Forecast the longevity of Dies
- Monitor production runs
- Mountable in both Flat and Rotary Dies

## Dimensions

**7110-DIE-S**

Another innovative product developed by an Inspirere Innovation Partner.
